Dear «NAME\_1ST»,

We have drawn a 10% random sample of charter and party boats in California and you have been selected to report your saltwater fishing activity for the week of **March 12 through March 18, 2001**. Because of the randomness of the sample draw, some boats may be drawn more than once in a 2-month sampling period while other boats may not be drawn at all. We need your response every time you're selected in order to maintain the accuracy of the study.

The enclosed form is provided for your convenience for recording your fishing activity. Beginning on Monday, March 19, someone from CIC Research will try to contact you to obtain the information. CIC Research, an independent marketing research firm, is conducting the survey for PSMFC.

We appreciate your participation and support of this important study. If you have any questions, please feel free to contact CIC Research at 888/637-6378 or myself at 503/650-5400.

Sincerely,  
Russell G. Porter  
Field Programs Administrator
